# Assessment

All assignment, internal assessments, and underpinning knowledge must be completed prior to the final practical examination.

The final external practical examination will be carried out by the external examiner at the end of the period of learning. The external examiner will also verify a sample of the assignment and internal assessment.

**Table 2**

Unit code	Mandatory units	Assessment	Grading
iUBT390	The art of photographic make-up	Practical examination	Pass 60%-74% Merit 75%-89% Distinction 90-100%
		Portfolio of evidence – Assignment	Pass/Refer

Unit specifications and additional supporting material for this qualification can be found on the ITEC website.

## Grading of the qualification

Learners must achieve a Pass grade or higher in the requisite number of units as specified in the rules of combination, see Table 1 above. Only mandatory units which are graded Pass/Merit/Distinction will contribute to the overall grade.

Practical examinations and theory examinations will be graded Pass/Merit/Distinction.

Portfolio of evidence containing the following will be graded Pass/Fail:

- Assignment

The overall qualification is graded Pass/Merit/Distinction.

Grade boundaries for units and the overall calculation for the qualification grade are open to annual review. Following this review, these boundaries and overall calculations can be adjusted by VTCT. This review and possible change within a qualification are to ensure the standard of the qualification grade is upheld throughout the qualification's lifecycle.

## Practical examination

Once all aspects of the mandatory units have been completed, learners will be expected to complete an internal mock practical assessment. This will be undertaken by the internal assessor/lecturer using the internal assessment forms. These must be handed to the external examiner on the day of the final external practical examination.

All practical assessments must be conducted in a controlled environment defined by VTCT (ITEC). The practical examination will be conducted by an external examiner; however, the centre is responsible for ensuring the examination can operate seamlessly by organising the process as defined in the 'Instructions for Conducting Examinations' which can be found on the ITEC website. The marking criteria and marking scheme can be found under the documents tab within the qualification.

## Portfolio of evidence

The assignment forms part of the internal assessment and should be assessed throughout the training by the lecturer using the appropriate forms.

The assessment form for the unit should be completed and placed with the relevant documentation for verification by the external examiner.

---

# Quality assurance

## Delivery of the qualification

A scheme of work must be approved by VTCT (ITEC) for all units prior to the commencement of the course.

Lecturers should aim to deliver the theory and practical of each unit simultaneously, i.e., both theory and practical of each unit should be taught together to ensure the underpinning knowledge is being delivered at the same time as the practical skills. This will help to ensure that learners understand the structures they are working on as a result of combining delivery with the practical application of treatments.

## Resources

The organisation delivering the qualification must provide a suitable environment for teaching the VTCT (ITEC) Level 2 Award in Photographic Make-up as well as all equipment both fixed and free standing to complete all aspects of the qualification. Learners need to be made aware of the amount of consumables/towels they will be required to provide.

## Achievement record

All units will require an Achievement Record to be completed by the lecturer for each learner. This achievement record will need to be kept by the centre and may be sampled by the external examiner or external quality assurer on their visit.

An Achievement Record for each unit can be downloaded from the ITEC website.
